OCEAN PATTERNS

Place the picture that finishes the pattern below.
CONNECT THE DOTS

Connect the dots to reveal our mystery sea friend!
Write down all of the steps a person would need to take to collect seashells.
Draw a mirror picture of the turtle on the blank side of the paper.
ONE WACKY DAY AT SEA

It was a _________ day and a sailor was watching the sea from his boat, much like any other day. However, today wasn’t an ordinary day.

It all started when the sun _________ hid in the clouds. The day suddenly turned _________ and the sailor started to look around. The _________ started to _________ swim towards the boat.

Not knowing what to do, the sailor started to sail the _________ boat in the same direction as the other sea animals. The sailor looked up and was surprised to see _________ falling from the sky! The sailor needed to _________ sail the boat to avoid getting hit.

The sailor sailed until the sun started to peak out of the clouds again. They said _________ when they saw the sun. The sailor’s sea friends also returned and the sailor felt _________ to see them again.

Sailor _________ waved goodbye and _________ sailed home.
OCEAN OBSERVATIONS

Observe and write down your observations, questions, predictions, and answers below.

**OBSERVATIONS**

Draw or write what you see.

**QUESTIONS**

Now that you’ve observed, what do you want to know?

**PREDICTIONS**

What do you think are the answers to your questions?

**ANSWERS**

How could you find these answers?
